Education

Graphic Era Hill University

Master of Computer Applications (MCA), CGPA: 8.59/10.0

Aug 2024 – Present

Dehradun, Uttarakhand

Shri Guru Ram Rai University

B.Sc (PCM), CGPA: 8.59/10.0

Aug 2019 – Aug 2022

Dehradun, Uttarakhand

The Doon Valley Public School

Intermediate (CBSE) – 88.2%

2019

Uttar Pradesh

The Doon Valley Public School

Matriculation (CBSE) – 9.6/10.0

2017

Uttar Pradesh

Projects

Parkinson's Disease Detection System — Python, OpenCV, ML (HOG, RF, SVM, KNN) 🐙

Jan 2025

- Developed a non-invasive and cost-effective ML system for early detection of Parkinson's Disease using hand-drawn spirals and waves.
- Performed image preprocessing and extracted discriminative features using HOG.
- Trained and evaluated Random Forest, SVM, and KNN classifiers, achieving over 90% accuracy.
- Integrated explainable visualizations to support clinical interpretation and model transparency.

AuraMind – AI Mental Wellness Chatbot — Streamlit, Python, DistilBERT, Gemini API 🐙

Aug 2025

- Built an AI-powered mental wellness chatbot using Google Gemini for empathetic and context-aware conversations.
- Integrated DistilBERT-based sentiment analysis to classify emotions and generate real-time mood scores.
- Designed mood tracking, visual mood-journey graphs, and session summaries.
- Implemented crisis-support resources and a dark-themed, accessible UI using custom CSS.
- Developed a modular, production-ready system using Streamlit, HuggingFace Transformers, and environment-based configuration.

Student Database Management System — C, File Handling, Linked Lists, Trees, Hash Tables

May 2025

- Developed a console-based student database system using core data structures for efficient data storage and retrieval.
- Implemented file handling for persistent data management and structured record operations.
- Utilized linked lists, trees, and hash tables to optimize search, insert, and update performance.
- Enhanced the console interface using `wprintf` and wide-character libraries for improved usability.

Technical Skills

- **Languages:** C, Java, Python
- **Web Basics:** HTML, CSS, JavaScript
- **Databases:** MySQL
- **Tools:** Eclipse IDE, Visual Studio Code, Git, GitHub
- **Core Subjects:** Data Structures, Object-Oriented Programming, Operating Systems, Computer Networks, DBMS, Software Engineering, Data Mining
- **Soft Skills:** Leadership, Teamwork, Problem Solving, Communication

Certifications

- Hack-O-Holic 3.0 – Participated and presented a project at the Co-Dev Club Hackathon.
- SWAYAM – Completed Research Methodology course covering research design and methodology.
- Amazon AWS Training – Completed foundational training in Cloud, ML, SageMaker, and DevOps concepts.
- Python Programming Certification – GUVI (Google).
